Mostly Made-Up Invention

To create a mostly made-up invention, let's start with a mostly made-up word. Take a look at the Periodic Table of Elements on the next page. Choose two real elements: whichever ones you like the sound of (you don't need to know anything about what they really do).

Element #1

Element #2

Combine those words to make up an imaginary, brand new element!
What is it called, and what weird thing does it do?

Draw an invention that uses your weird new element! Label all the parts to show exactly what the invention does!
